Monthly issues of the Index Medicus are published by the National Library of Medicine. All communications regarding subscriptions to monthly issues should be addressed to the Superintendent of Documents, U. S. Government Printing office, Washington, D. C. Price: $20.00 per year; $25.00 foreign. Single copies $2.25.

The Cumulated Index Medicus, which supersedes the monthly Index Medicus, is published annually by the American Medical Association. All communications regarding subscriptions to the cumulated edition should be addressed to the Circulation-Records Department, American Medical Association, 535 North Dearborn St., Chicago 10, Illinois. Price: $35.00 per set in U. S., U. S. Possessions, and Canada; all other countries, $40.00. Only complete sets will be sold.

INTRODUCTION

The *Cumulative Index Medicus* is a merging into one alphabet of the material which appeared in the twelve monthly issues of the *Index Medicus* (140,000 articles in 1961, 145,786 articles in the present volume); the format remains the same. The *Cumulated Index Medicus* is arranged in two sections, Subject and Author. Complete unit citation entries are printed within each section. In the Author Section, however, the unit citation appears only under the senior or single author with all secondary authors' names referring to the full reference under the senior author. The complete entry normally includes the names of all authors cited in the journal; the title of the article, either in the original English or in translation (enclosed within brackets); the journal title abbreviation; the volume number; inclusive pagination; date of issue; and, an abbreviation denoting the original language of the article if other than English. A list of the foreign language abbreviations follows:

Af	Afrikaans	It	Italian
Al	Albanian	Jap	Japanese
Ar	Arabic	Kor	Korean
Arm	Armenian	Lith	Lithuanian
Az	Azerbaidzhan	Nor	Norwegian
Bul	Bulgarian	Per	Persian
Ch	Chinese	Pol	Polish
Cz	Czech	Por	Portuguese
Dan	Danish	Push	Pushtu
Dut	Dutch	Rum	Rumanian
Fin	Finnish	Rus	Russian
Fr	French	Ser	Serbo-Croatian
Geor	Georgic	Sl	Slovene
Ger	German	Sp	Spanish
Gr	Greek	Sw	Swedish
Heb	Hebrew	Th	Thai
Hun	Hungarian	Tur	Turkish
Ic	Icelandic	Uk	Ukrainian
In	Indonesian	Viet	Vietnamese

Under each appropriate subject heading and subheading, the complete entry is arranged in approximate alphabetical order merely by the first letter of the senior author's surname. The entry (without heading and subheading) appears exactly the same way in the Author Section, located in strict alphabetical order according to its senior author's name. The typical junior author cross reference appears as follows:

Gaudier B see BRETON A

Articles about an individual are listed in the Subject Section under the headings BIOGRAPHIES, OBITUARIES, and FAMOUS PERSONS. Entries are listed under the headings BIOGRAPHIES and OBITUARIES alphabetically by the subject of the article rather than by the author.

Journal title abbreviations are based on the system devised by the National Library of Medicine described in detail in the recently published article by Frank B. Rogers and Thelma Charen, entitled "Abbreviations for Medical Journal Titles", published in the *Bulletin of the Medical Library Association*, Vol. 30, No. 3, July 1962, pp. 311-352. Capital letters only are used at the beginning of each element of the abbreviations and all punctuation is eliminated. A complete key to the journal title abbreviations used in the *Cumulated Index Medicus* is provided—one arranged alphabetically by the abbreviation, the other by the full journal title.

Subject Headings

The entries in the Subject Section are arranged under subject headings representing the main concepts of medicine and its ancillary fields. The strictly controlled system of headings, along with cross references used, has been separately published by the National Library of Medicine under the title *Medical Subject Headings*. The 1st Edition of *Medical Subject Headings* (1960) was used in the preparation of the present volume of the *Cumulated Index Medicus* but the 1963 issues of the monthly *Index Medicus* and the 1963 *Cumulated Index Medicus* will be prepared using the 2d Edition of *Medical Subject Headings* (1962). This 2d Edition has been published as Part 2 of the January 1963 issue of *Index Medicus* and will go to all subscribers to the *Index Medicus*. Part 2 of the January 1963 issue is also available separately, from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D.C., at $2.25 per copy.
